

WORKING WITH FOOGALLERY IN WORDPRESS

Mark W. Law, ccp
indigoblues.ca

The screenshot shows the WordPress dashboard for 'Sauble Beach United Church (Zion-Amabel)'. The left sidebar contains a menu with 'FooGallery' selected. A sub-menu is open, and 'Galleries' is highlighted with a red circle. The main dashboard area shows 'At a Glance' statistics (7 Posts, 10 Pages, 0 Comments, 1 in moderation) and 'Activity' sections for 'Recently Published' and 'Recent Comments'. The URL at the bottom is 'saubleunitedchurch.ca/wp/wp-admin/edit.php?post_type=foogallery' and the version is 'Version 4.8.2'.

WORKING WITH FOOGALLERY - STEP 1

- ON THE LEFT SIDE MOUSE OVER 'FOOGALLERY' TO REVEAL YOUR GALLERY OPTIONS
- CLICK ON 'GALLERIES' TO EDIT OR ADD IMAGES TO AN EXISTING GALLERY.

WORKING WITH FOOGALLERY - STEP 2

- CURRENTLY IN OUR FOOGALLERIES WE SEE WE HAVE ONLY ONE GALLERY.
- MOUSING OVER OUR GALLERY TITLE REVEALS OUR EDITING CHOICES (AS WITH POSTS)

WordPress admin interface for Sauble Beach United Church (Zion-Amabel). The page title is "Galleries" and the user is "Howdy, Sauble United Church Staff".

The interface shows a list of galleries. The first gallery is titled "We Are..." and is published on 2017/08/05. It uses the "Responsive Image Gallery" template and contains 14 images. The shortcode is "[foogallery id="76"]". The gallery is linked to a "Gallery" post.

The "Edit" link for the gallery is circled in red. Other actions available are "Quick Edit" and "Trash".

WORKING WITH FOOGALLERY - STEP 3

- THIS TIME WE WILL CLICK ON THE 'EDIT' LINK TO EDIT OUR GALLERY OR ADD IMAGES.
- WORD TO THE WISE HERE - CLICKING 'TRASH' WILL DELETE / TRASH THE GALLERY!

A LITTLE BACKGROUND ABOUT US.

We have been around since typewriters, longer than the Internet, before the days of drag 'n drop front-end web designing, before Google, before Facebook.

We remember when everything was coded from scratch, behind the scenes, when HTML was still new.

Our skills have evolved alongside all things digital, and we are always up to date on the essentials of creating a modern look and feel with up to date technical specifications.

Our extensive experience includes 20+ years of programming development, arts and design, desktop publishing, creative marketing and social media. On the side, you can throw in cryptography, meteorology, tech editing, professional musical leadership, along with all the functions required to keep a business running smoothly, like book-keeping, records, planning and over 25 years of retail experience.

Today, we offer a wide variety of services to our clients including graphic and web design, custom web programming and development, logo design, mobile apps, custom core programming, data and IT infrastructure, social media and other marketing support, as well as hardware system repairs and upgrades. We also offer layout and templating for printed materials.

Located in Southwestern Ontario, we bring our unique Canadian slant to the table in addition to our experienced global connections.

Visit us at <http://www.indigoblues.ca> for more information about what we can do for you!
